

# OSNM Group Home & Auto Insurance Program

There's no such thing as a one-size-fits-all insurance product. For insurance to really work it has to be relevant to the way you live, and suited to you. That's why we partner with groups like OSNM to help determine what kind of insurance you actually require —how it can best meet your needs. Then we provide the guidance and support you need to navigate the unique complexities of your world. In short: no matter what you do, no matter how you do it, we'll be there when it matters most.

HUB International was born in 1998 with the merger of 11 privately held insurance brokerages. That number has grown to a network of more than 400 integrated brokerages across North America. Today, HUB is one of the largest insurance brokers in the world and the largest in Canada.

OSNM has partnered with HUB to offer a home and auto insurance program specifically designed for OSNM members, with access to exclusive group rates and discounts. As a broker, HUB compares prices and coverage options from multiple companies in one quote.

From cars to boats, cottages and more, HUB's team of highly experienced advisors will help tailor a policy to fit your unique needs. Underwritten through Economical Select, the program offers 20% off property and 25% off auto insurance, with additional savings for bundling.

## See what the HUB Advantage can do for you:

Being insured through HUB affords you the support of having an intermediary to champion on your behalf with an insurance carrier.

## What this means to you:

- A broker puts the interests of a customer first and foremost; works for their clients - not for the insurance companies.
- In the event you have to make a claim, your advisor works on your behalf to provide you with unbiased counselling.
